Internship Final Presentation

Yen Nguyen

FLOWMETRIC

Flowmetric is a pioneering company dedicated to enhancing environmental protection and economic resilience through advanced corporate water management solutions.

Mission: “Empowering water-intensive organizations with advanced technology to navigate the challenges of climate change and ensure a sustainable water future”.

Goal: To collaborate with water-intensive companies, enhancing their water efficiency and ensuring compliance with stringent environmental regulations and international standards.

Responsibilities

01 Market Research

-Extensive market research on market landscape and the position of the company within it.
- Looking at other comparable companies, which provided valuable insights into the climate risk management space.

bluesign®

waterplan

Ceres

Southeast Asia Market

Textiles

Significant water challenges, including high water consumption, pollution, and regulatory pressures.
Demin producers and expand to other textile manufacturers.

Food & Beverage

Beverage production, brewing and bottling.
Food processors: maintaining high water quality and availability is critical for food processors.

Industrials

Rely heavily on water for cooling and other operational needs.
Cooling system
Water recycling

Agriculture

Agriculture in Southeast Asia consumes a substantial amount of water.
Irrigation
Manage water resources

Contributions

White Paper

Enhanced the presentation of research findings, making them more accessible and engaging for stakeholders.

Contributions

Outreach

Engaged with organizations like the Vietnam USAID. Expanded professional relationships, strengthened the organization's network with key agency.

Yen Nguyen <yen.nguyen@flowmetric.io>
to Uyen

Dear Mrs. Uyen,

Thank you for your prompt response and for accommodating a quick phone call regarding the project information. We appreciate your time, especially given your busy training schedule.

Please let me know your availability and preferred time slots.

Thank you again for your assistance!

Best regards,

flowmetric

to Mbirnbaum, wilder.mccoy, nam.doan, Uyen

Dear Mr. Birnbaum,

I hope this message finds you well.

I would like to extend my sincere thanks to Mrs. Uyen for facilitating this connection.

Uyen mentioned that you will be in HCMC at the end of July. We would greatly appreciate the opportunity to meet with you in person. Please let us know your availability for a meeting.

We look forward to your response.

Best regards,

flowmetric

Achievements & Lessons

I have gained a deep understanding of the challenges that new businesses face, with those unique models like ours focused on water security and sustainability.

- Able to conduct comprehensive research and analysis.
- Deepened understanding of the climate risk management space, especially in Southeast Asia.
- Worked closely with team members on various projects, enhancing teamwork and communications skills.

Challenges

One of the most significant challenges I faced was adapting to a new industry and understanding its complexities. I initially felt overwhelmed by the technical terminology and intricate market dynamics. But investing time in reading industry reports and seeking guidance from my supervisor helps me learn and understand our company's structure.

Risk Typology
Water Quality Risk
Water Scarcity Risk
Flood Risk
Water Inefficiency
Compliance Risk
Repuational Risk (Loss)
Repuational Risk (Gain)

Water Tariff	M/3 of water Consumed
$ 0.51	146,350
$ 0.76	146,350
$ 1.01	146,350
$ 2.01	146,350

Water Tariff	M/3 of water Consumed
$ 0.51	146,350
$ 0.76	146,350
$ 1.01	146,350
$ 2.01	146,350

Recommendations

- Start projects early and take the time to explore host company and the related industry.
- More time you invest in understanding the company's operations and the industry's nuances, the more rewarding and impactful the experience will be.
- Opportunities for cross-departmental collaboration could provide a broader perspective.
